

# ECO TERRA ORGANIC NARIÑO PROJECT

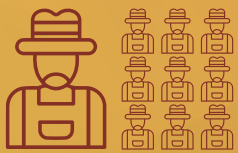

**MASTERCÓL**  
SPECIALTY COFFEES

NARIÑO?

## Objectives

- To expand the supply of certified organic Colombian coffee, including such unique and special origins as Nariño.
- Generate sustainable marketing of 100 small producer families from Nariño, average farm size 2 hectares.
- Environmental, social and economic impact 6 regions within the department of Nariño through the payment of premiums for organic certificates.
- Create a concise and traceable data base for social and environmental projects with the producers of the group; some examples are honey water treatment plants, reforestation, training in environmentally friendly agricultural practices, improvement of housing infrastructure and production.
- Refine a project for roasters who want to create a long-term bond, support projects and have a direct relationship with the group.
- Opportunity to generate an exclusive supply for importers or roasters who want to secure volume and be the exclusive in the market for the product.
